loss. Considering the segment profitability measure you present in your financial

statements under ASC 280-10-50-22 is Net Operating Income/Loss, a measure that $\ensuremath{\mathsf{N}}$

includes depreciation, Net Operating Income/(Loss) -- excluding depreciation appears to

represent a non-GAAP measure. Please revise to disclose the segment profitability

measure in conformity with ASC 280. Alternatively, please note that any additional

segment profitability measures, presented outside your financial statements and related

footnotes, would be non-GAAP financial measures that could only be presented to the $\,$

extent they are appropriate and their presentation fully complies with all the requirements $\$

of Regulation G and Item 10(e) of Regulation S-K. See also Questions 104.02 and

104.03 of the Compliance and Disclosure Interpretations on Non-GAAP Financial $\,$

Measures.

profit or loss (Net Operating Income/(Loss)) to your consolidated income before income

taxes. Please note that the reconciliation also applies to the interim $\ensuremath{\mathsf{financial}}$
